

DPD CUSTOMER ALERT!

CAM 320, "Reinforced Masonry: Determination of f'm, Testing, and Inspection Requirements"

has been permanently pulled from circulation. It is now obsolete, due to the arrival of the International Codes.

- If you have questions about reinforced masonry during the design process, please call DPD's Building Code Technical Support Line, (206) 684-4630, available 1-4:15 p.m., Monday-Friday.
- Once your permit has been issued, a DPD Structural Inspector can also answer questions at your pre-construction conference.
